

# Crimping Force Tester

## Precision Crimping Force Measurement System

JRAGRAU Crimping Force Tester is designed for accurate measurement of crimping force in wire harness, terminal, and connector applications. The system ensures repeatable, reliable results using a servo-driven loading mechanism and real-time digital monitoring.

### Technical Specifications

Capacity	50, 100 & 200 kg
Least Count	10 grams
Accuracy	±0.5% of reading
Loading	Servo Motor Driven
Display	4" Touch Screen
Indication	Peak Load, Track Load, Speed, Overload
Power	230 VAC ±10%, 50 Hz
Size	600 × 300 × 150 mm (L×W×H)
Calibration	NABL Certified

Warranty	1 Year
